### What is the CCSE

This is a caravanning and camping search engine which will return results specifically from sites we enter into it. In other words, the better and more websites we enter the better the results we will get.

### For example:

A search using the word caravan in the normal Google search engine will return results from the rock band caravan, Cessna caravan or even a mobile shopping experience!

A search using the word caravan in this search engine will only return results related to our hobby. For example, The caravan Club

### Refinements to the standard search

To help us be more specific on our searches we can refine the search using refinements or categories for example; Manufacturers or Insurance or whatever refinements we add, so for example you could search for the word caravan and refine it by insurance this will return results for all caravan insurance companies, as long as we have submitted them to the search engine in the first place....

And this is where you come in.
